CONSULTING

HOW IT WORKS

Our learning design specialists work closely with high-profile industry experts to create content that is both engaging and legally accurate.

SPEED TO COMPETENCE

We use advanced module allocation to ensure that learners only undertake content which is relevant to their roles.

CROSS-JURISDICTIONAL TRAINING

We provide customisation and translation options so that you can deploy in every country your business operates.

LEGALLY ROBUST

We constantly apply legal and editorial updates to keep content accurate and up-to-date.

ACCESSIBLE TO ALL LEARNERS

We take accessibility requirements into consideration at every step of the content creation process, from writing to design.

MORE THAN JUST BOX-TICKING

We design with our learners in mind, which means our content is as interactive as it is comprehensive. Every course comes with scenarios and real-life case studies to give rich context to plain theory.

PICK THE MODE THAT SUITS YOU

BLENDED LEARNING

A combination of online and traditional face-to-face learning.

MICROLEARNING

Bite-sized, highly targeted learning snippets designed to meet specific learning outcomes.

ADAPTIVE LEARNING

Training that saves learners and businesses time by only showing them content they don't already know.

CAMPAIGN-BASED LEARNING

Breaking down bigger compliance topics into smaller chunks deployed over time to reinforce a message.

FACE-TO-FACE WORKSHOPS

Our consultants deliver expert training to audiences of all sizes around the country and internationally.

FLEXIBLE DELIVERY

Your business has unique delivery and reporting requirements. Use our fully-managed hosted learning platform Salt Web to deliver your training, or let us integrate directly with your LMS using our innovative Salt Adaptive system.

24/7 REMOTE ACCESS

Learners can access their online training course from anywhere at any time, on any device.

LANGUAGE AND VOICE-OVER SUPPORT

We can embed different languages in the same course, which is ideal for businesses operating in multiple jurisdictions.

CUSTOMISATION OPTIONS

Customise your business' Salt Web portal with your corporate colours, logo, or a welcome message or introduction video.

A PERSONALISED TRAINING EXPERIENCE

Our Salt Adaptive system identifies gaps in learners' knowledge then takes them straight to the material they may need a refresher on.

UPLOAD YOUR OWN POLICY

The Policy Builder feature lets you upload directly onto the portal and track which staff have read, accepted and acknowledged them.

RAPID CONTENT DEVELOPMENT AND EDITING

We provide an easy-to-use editing tool that lets you create your independent bespoke content or update your Salt Adaptive course in real time.

COMPREHENSIVE REPORTING

Our platforms come with all the analytics you need to track participation and completion rates across your organisation.

ABOUT GRC SOLUTIONS

Governance Risk and Compliance (GRC) Solutions started life in the late 1990s as a small division of a major law firm. Today, we have offices around Australia, and in Singapore and New York. More than 300,000 employees in all types of organisations use our courses.

Our combination of technical and specialist instructional design expertise has positioned us as one of Asia-Pacific's leading providers of online compliance training.

GRC's flagship offering is Salt Compliance, an extensive library of online compliance training courses covering everything from Anti-Bribery and Corruption to Work Health and Safety. Our areas of focus include improving speed to competency and reducing mandatory training hours through the use of adaptive e-learning technologies and design.

The team behind Salt Compliance includes subject matter experts, professional adult educators, governance and compliance software experts, and web designers and publishers. We also work with our partner law firms to ensure our content is legally accurate and stays up-to-date with any changes in the regulatory landscape.
